

Programme

We hope you will take this opportunity to share your stories and participate in the biennial conference.

We invite our colleagues to join us at our biennial symposium to share their stories and delve into what makes Territory libraries unique now and into the future.

Through the theme of **Evolution, Excellence and Energy: The triple E approach to future proofing libraries**, we hope to encourage presenters to explore options including, but not limited to:

- Evolution of library services that are proactive and sustainable;
- Excellent services to our community that are innovative and creative; and
- Energetically engaging our communities.

PROGRAM

Friday 16 October 2015
